PROSPECTUS OF THE "NATIONAL MON-UMENT,"

A weekly journal to be published in Washington, under the sanction of the Washington National Monument Society. JAMES C. PICKETT, EDITOR AND PUBL

Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be a literary, agricultural, and miscellameous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting scientific articles, embracing mechanics; foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of aiding in the erection of the noble column now rising on the banks of the Potomas, in honor of the Father of his Country, and which every one who venerates the name of Washinoron would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining funds will be fathfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriots an object, and one so entirely national, is earnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratitude.

The Board of Managers recommend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument journal, as one well qualified to perform the duties of teditor, and to conduct the paper faithfully, and satisfactorily to the subscribers. They assure their fellow-citizens that this enterprise is not a speculation get up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, and he asks nothing more, than a very moderate compensation for his services. Not one doilar, therefore, of the direct subscription to the erection of the M

fifty thousand paying subscribed, as will yield an annual net profit of from fifty to sixty and dollars, e postmasters, and secretaries of all organized bodies ghout the Union, are respectfully requested to act ents in obtaining subscriptions, thus siding the great tof our exertions.

all editors and publishers, on account of the object hich the Monument newspaper will be established, wish it to succeed, it is hoped that they will conte to its success by publishing this prospectus. I moneys will be counted, and all letters and moneys essed prepaid, to the general agent of the Monument sty, iton. Elisha Whittlesey, Washington.

FIGURES.—Millard Fillmore, ex-officio President; Arch. derson, First Vice President; Walter Lenox, (Mayor Washington.) Second Vice President; Thos. Carbery, of Vice Precident; J. B. H. Smith, Treasurer; Geo. terston, Secretary.

of Washington,) Second Vice President; Thos. Carbery, third Vice President; J. B. H. Smith, Treasurer; Geo. Watterston, Secretary.

Board of Managers.—Winfield Scott, N. Towson, Thos. duarce, W. A. Bradley, P. R. Fendall, Walter Jones, thomas Blagden, Peter Force, W. W. Scaton, M. F. Maury, C. Hartley Crawford, Benj. Ogle Tayloe, Elisha Whittlessy. Terms.—The Monument will be printed on a double-ord state of the paper and type being of the best quality—and in quarto form, containing eixteen large pages, that may be more easily preserved. The price will be two tollars per aunum, payable on the receipt of the second number. The nature of the enterprise not admitting of any credit, none can be given.

Societies and clube will be furnished with the MONUMENT on the following terms: 3 copies for \$5; 5 copies, \$5; 10 topies, \$16; &c.

out delay. The first names to the General Agent-nout delay. The first number will be published early fay, and the second on the second day of August, and kly thereafter; time being allowed for the Prospectus e circulated, and for the agents to make returns. As subscribers will be contributors to the Monument ff, their names will be published in the paper. Assumption, April 23, 1851.

Wassingron, April 23, 1861.

CYODFREY PATTISON, & CO., OF NEW YORK, Take leave to inform their friends and the public, that they have taken up the Importing Buriness on their own account. For the future they will confine themselves strictly to the Commission Business, for the purchase of dry goods, in Glasgow, Scotland.

From their long experience in the trade, they feel confident that they can promote the interest of those engaged in the importation of dry goods, and they respectfully solicit orders, which shall have their best attention.

The name of the firm in Glasgow is changed to Godfart Parrison & Co.

The New York firm being discussed.

PATTISON & Co.

The New York firm being dissolved, they will be please
to receive orders through their agent, James Pattison, No.
31 Pine street, New York.

Mar 24—

Austin's Magic Freezer,

Through in six minutes. For the preparation of
Ice Creams, Water Ices, &c.—Patented September 19, 1848.

THE distinguising merits of this Apparatus are—

1st. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric sir, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicency of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freeze does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Gream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

H. F. JACKSON,

Eutaw House, Baltimore, May 15, 1848.

"This is to certify, that doring the automore of 1849.

cheerfully recommend it to the public."

H. F. JACKSON,

Eutaw House, Baltimore, May 15, 1848,

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Cream Freezers of the largest size, (10 gallons) making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five or plain Cream, in thirty minutes from the time I commenced working it.

Maltimore, April 6, 1851."

MERICAN HOUSE, HANOVER STREET, BOSTON.

THE Undersigned having entirely yebuilt and on-

AMERICAN HOUSE, HANOVER STRRET, BOSTON.

THE Undersigned having entirely rebuilt and entired the above extensive establishment, containing in all about three hundred and fifty rooms, would respectfully give notice that it is now ready for the coepition and accommodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is diemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spaced to render any apartment perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing, rooms, will be found to be of the most beautiful and tasteful manufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Propertor pledges himself that the American House shallbe truly the Praveller's Horse mar 24.

DELAWARE COLLEGE. THE Paculty of Instruction of this Institution, its present organization, commists of the following the processorships, to wit:

phys.

A Professorship of Rhetoric and Belles Lottres,
A Professorship of Chemistry and Natural History,
A Professorship of Civil Engineering,
A Professorship of Modern Languages and Drawing.
The Collegiate year is divided into two sessions or terms of twenty-one weeks each. The first session commences on the fourth Wednesday of October; and the second on the fourth Wednesday of April. Each is followed by a vacation of five weeks.

Vacation of five weeks.

COURSE OF INSTRUCTION.

FRESHMAN CLASS.—I. Livy, begun; Xenophon's Anabasis; Algebra, begun; History, begun; Algebra, finished; Homer's Odyssey, begun; Algebra, finished; Geometry, begun; History, continued.

HI. Horacs, begun; Homer's Odyssey, finished; Geometry, live books; History, finished.

JUNIOY, CLASS.—I. Tacitus, begun; The Prometheus of Asaby', us and Electra of Sophocles; Analytical Geometry, finished; Galculus; Natural Theology; Evidences of Christianity.

finish st. Calculus; Natural Theology; Evidences of Christianit y.

II. Logic; Mental Philosophy; The Alcestus of Euripid es; Tacitus, finished; Natural Philosophy; Mechanics, be gun.

III. Moral Philosophy; Plato's Gorgias; The Captive of Plautus; Mechanics, Hydrostatics, Pneumatics, and Meteorology.

SOPHOMORY CLASS.—L. Horaco, finished; Xenophon's Memorabilia; Geometry, finished; Rhetoric, begun.

II. Cicero de Amicitia and de Senectute; Herodotus, begun; Plane Trigonometry; Spherical Trigonometry; Rhetoric, continued.

III. Cicero de Officiis; Herodotus, finished; Surveying; Analytical Geometry, begun; Rhetoric, finished. Rhetorie, continued.

HI. Cicero de Officiis; Herodotus, finished; Surveying; Analytical Geometry, begun; Rhetorie, finished.

Session Class.—I. Political Philosophy: The Andria of Terrence; The Clouds of Aristophanes; Acoustics, Optics, Electricity, Magnetism.

II. Elements of Criticism; Butler's Analogy; Cicero's Tupoulen Questions; Demosthenes de Corona; Voltaie Electricity or Galvanism; Electro-Magnetism, Magneto-Electricity, Electro-Dynamies; Astronomy, begun.

III. The Constitution of the United States; Astronomy, finished; The Science of Heat; Thermo-Electricity; Chemistry and Geology.

PHILOSOPHICAL APPARATUS.

The Collège is provided with a Philosophical Apparatus that furnishes ample means of experimental illustration in all the different branches of Natural Philosophy. The sum of three thousand dollars has recently been expended, partly in this country and parity in London and Paris, in the purchase of new apparatus, adapted to the present advanced state of the Physical Sciences.

EXAMINATIONS.

At the close of each stindy, or branch of study, the members of the class are exaculty examined, and, at the close of the year, in all the studies of the year, in the presence of a Committee of the Trustoes; and their attainments are communicated to the Board of Trustoes.

RELIGIOUS INSTRUCTION.

RELIGIOUS INSTRUCTION. RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Sunday, and the recitation on Menday morning is always in the Greek Testament. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Bipiscoppillan, and Methodist) in the village, and note all absentees.

Two at least of the Professors, with their families, will reside in the College buildings, and will beard at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

ADMISSION.

mon table with the students, who are required such rooms as may be assigned them by the Faculty.

ADMISSION.

In order to admission to pursue the entire course, a student must be at least fourteen years of age; must give satisfactory evidence of good moral character; and must sustain an examination in the following studies, viz:

Arithmetic, Elements of Algebra, Latin and Greek Grammar, Jacob's or Feiton's Greek Reader, and the first two books of Xenophon's Anabasis, Jacob's or Doering's Latin Reader, Saltust or Cesar, Ciero's Select Orations, and Virgil, or what shall be deemed equivalent.

EXPENSES.

ENTRANCE FEE.—If the student enter as Freshman, five dollars; if as Sephomore, ten dollars; if as Junior, fifteen dollars; and if as Senior, twenty dollars.

1st Session. 2d Session.

Tuition. \$21.00 \$21.00

Board is furnished with the families of the Pro

wance.

For students who do not design to prosecute the whole Course required for a degree, a more limited range of studies is furnished, adapted to the sphere and course of life of each individual, so far as such can be reasonably anticipated.

of each individual, so far as such can be reasonably anticipated.

The studies of this Course are arranged under the following departments, to wit:

1st. A MATHEMATICAL DEPARTMENT—In which, beginning with Arithmetic and Algebra, the student will be carried, seriatim, through all the higher branches of the Mathematics, ending in their application to Natural Philosophy, Astronomy, &c.

2d. AN ENGUISH DEPARTMENT—Comprising instruction in Orthography, Reading, Elocution, Grammar, Writing, Geography, History, Composition, Rhetoric, Logic, Intellectual Philosophy, Moral Philosophy, Political Grammar, Story on the Constitution, Philosophy, Ornithology, Natural Theology, Elements of Criticism, and Evidences of Christianity.

per centage, together with an early operation as are requisite for a thorough knowledge of the business of the counting room.

3. Book-keeping—Single and Double Entry, by the most approved methods. A complete course of instruction in this branch will be furnished, designed to fit the student to take charge of any set of account books.

4th. An Agricultural Department—Comprising a selection from the English and Mathematical courses; and, also, Surveying, Botany, Mineralogy, Geology, Chemistry, and Agricultural Chemistry; the last two illustrated by experimental lectures.

5th. A CVIL ENGINEER DEPARTMENT—In which are taught Arithmetic, (mental and written.) Geometry, Trigonometry, Surveying, with the use of instruments in the field, Practical Engineering, Architecture, Perspective, Draughting, and Topography.

6th. A TRACKET'S DEPARTMENT—The course of study will consist of a judicious selection of subjects from the other departments, including all the branches pursued in our common schools. Practical Lectures will also be given on School Traching, both as a science and as an art.

Pupils will not only thus receive the fullest instruction relative to the best and most popular methods of teaching, but they will also have opportunities of exemplifying them, by hearing recitations in the lower departments of the Institution.

7th. A Department or Modern Language—In which

them, by hearing rectations in the lower departments of the Institution.

7th. A DEPARTMENT OF MOREEN LANGUAGE—In which students who wish to take a thorough course can have an opportunity of doing so; while others, whose object may be to acquire sufficient knowledge to translate with facil-ity, and to pronounce with tolerable correctness, in as short a time as possible, are also provided for.

Newark Academy.

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to centew it upon a new and improved foundation, and to centew it with advantages possessed by few similar inpititutions in the country. The Academy, herosoftire inerged in the College, and of course subjected to all the crills which have been found to attend the samglamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete togrding establishment, has been exceted and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the Interests or operations of the other department. The furnitures of the study-rooms and dormitories has been chosen with poculiar reference to comfort and convenience for study and no expense has been spared in providing the sparafus necessary to needer the means of instruction completes giving to Newark Academy facilities for private study and comfessables accommodation of students, fully equal to those afforded by many of our colleges.

From its futimants relation to the College, students of the Academy enjoy many advantages not generally obtained as fundituitions of this kind. Those who wish to pursue some particular branch which fulls intere properly within the College chasses. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Paculty, may enjoy the use of the College chasses. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Description and such other privileges of the College chasses. Students also of proper gas and discretion

of the College, Rev. MATTHEW MEIGS, A. M., President of Delaware College

WILMINGTON BOARDING SCHOOL
FOR BOYS.—This institution is situated in one of the healthiest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the leading hay be inferred from the fact that, since the astablishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either hare, or from diseases contracted while here.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, English branches, and French Languages, Particular attention is pull to the higher Mathunesies and their application to Mechanicis and Engineering; the latter and Surveying are taught practically by failed operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected bibrary, of more than one thousand volumes, containing works on the various branches of Literature and Sciences furnishes ample reading matter; while a Laboratory, fully supplied with apparatus in Chemiened Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of elevan weeks such, leaving a vacation of two months, from about the middle of the Seventh month (July).

THE TESTIMONY OF ONE OF OUR LAWYERS.—
Mr. JAS. L. HAMILTON.—Dear Sin: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine. "THE GREAT VA. REMEDY." in the diseases which it is designed to cure, are sufficient, in my opinion to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have desived from its use, and the salutary effects which it have derived from its use, and the salutary effects which it have derived from its employment in the cases of several friends, to whom I had recommended it, constrain me to contribute, for such use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues. My own case was Dyspepsis of long duration, and very aggravated in its character, manifasted by an almost total destruction of the digestive functions, great debility, nervousness, emaciation, and impaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely refleved. The cases of my friends, in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved effections, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the tasts as a certifial, and in my experience corrects all demangement of the stomach, restores the wasted orenfeebled quergies of the digestive organs, and imparts strength and realimation to the whole system.

Very respectituity, yours, &c.,

J. HOWARD GRIFFITH,

Marshall Buildings,

Baltimore, Aug. 24th, 1850.

Ba

VALUABLE LAW BOOKS. WE invite the attention of the Profession, and others desiring Law Books, to our very extensive stock, which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Bepartments, Associations, and States,

Orders by mail promptly and carefully executed.

English Common Law Reports, English Common Law Reports,

58 Volumes, with a complete Index to the first 47 Volumes.

Since volume 39 of this series, The English Common Law Reports have been reprinted in full. With volume 44, we commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

For the succeeding, 2 50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared with the rates of some of the principal American Reports, of eyen inferior merit, recommends them particularly to the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the Eng

A General Index to the first 47 Vols. of the English Common Law Reports.

By Hon. George Sharswood and George W. Biddle, Esqrs. 1 vol. 8vo.—\$5 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Euclidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, thus Reports will be found of comprehensive, convenient, and chesp, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

New English Exchequer Reports—Pleas and Equity.

To be reprinted in full, in best style, with American Notes, by J. I. CLARK HARE and H. E. WALLACE, Esqrs, at \$2.50 per vol., bound.

Including McCleiland and Younge, Younge and Jervis, Crompton and Jervis, Crompton and Meeson, Crompton, Meeson and Roscoe, Meeson and Younge and Collyer—in Equity.

Messon and Roscoe, Messon and Younge and Conyer—in Equity.

Messon and Welsby, in 19 vols., Welsby, Hurlstone and Gordon, vol. 1, published and ready for delivery.

E We take pleasure in referring to the accompanying letters, explanatory of the character of these Reports, and their value to the Profession in this country:

CAMBRIDGE, January 25, 1845.

Messra, T. & J. W. Johnson:

Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not ameerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library.

JURGEPT SCHEY

of more importance or value for a Professional Library.

JOSEPH STORY.

CAMBRIDGE, January 25, 1845.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fitteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours,

SIMON GREENLEAP.

Messrs, T. & J. W. Johnson.

Law Library.

Law Library.

Fourth Series—Forty Volumes.

The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal-Maxims, Archbolt's Nail Princ, Archbold's Landford and Denaut, Crabb on Real Proporty, Smith on Contracts. The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

Leading Cases in Law and Equity.

Leading Cases in Law and Equity.

In Three Series—With American Notes.

1. White and Tudor's Leading Cases in Equity, 1 vol. 8vo. 34 50; with copious and claborate American Notes, by Measure.

2. Smith's Leading Cases, 2 vols.—\$10.

Third American Edition—with Notes and References to late En gith and American Decisions, 3. I. Clark Here and H. B. Vallace, Esqus.

3. A verican Leading Cases, 2 vols.

Containing voluminous and learned notes of the Leading Cases in Mercantile Law decided by the American Courts. Edited by John Lanis Clark Hare, Esq., and Horace Binney Wallace, Esq.—\$9.

The English Eccleniastical Reports.

Seren Volumes—\$23 50.

Purnish a series of Decisions in the Ecclesiastical Courts of England and Scotland, from 1700 to 1838, and contain seventeen English volumes condensed in seven.

"We respectfully commend this series to the notice of the Profession. It contains the only reports of the many important cases of Wills, Settlements, Divorces, &c., and covers the whole of that important branch of the law embraced in this country by the Orphans' Court Practice.

"It would be difficult to point to any English Reports of more general value in the United States, than this selection of Decisions."—Marvin's Legal Bibliography.

British Croon Cuses Reversed.

Three Volumes—\$9.

From 1706 to 1840—To be continued.

British Crown Cases Reversed.

Three Volumes-29.

From 1706 to 1840-70 be continued.

The Decisions upon the Crown Cases reversed for the consideration of the Twelve Judges of England, are of the first importance to the due administration of the criminal justice of the country; and in committing to the press those which have occurred during a recent period of more than forty years, the publishers believe that they are making an acceptable communication to the Profession and the public.

The three rolumes already published contain all the Reversed Cases since Leach.

Law Booksellers, Publishers, and Importers.

NOTICE.

BALTIMORE AND WASHINGTON RAILROAD.

N and after WEDNESDAY next, 9th instant, the station on Pennsylvania avenue will be vacated, and the new one on New Jersey avenue occupied.

The Passenger trains will leave the latter, commencing at 5 p. m., as usual, at 6 and 9 a. m. and 5 p. m. daily, except on Sunday, when but two trains run, viz., at 6 a. m. and 5 p. m.

In making this change, the undersigned desires to call attention to the rules of the Company, in regard to the

In making this change, the undersigued desires to call attention to the rules of the Company, in regard to the reception and delivery of merchandise:

Ist. Shippers are reminded, that in all cases a bill with full directions should accompany the goods.

This is for the protection of both parties, and unless complied with the goods cannot be received.

2d. Consignees are notified that all merchandise must be removed on the same day upon which it is received, as the Company cannot hold itself responsible for any thing left in its house during the night.

The hours for reception and delivery of merchandise are from 8 a. m. till 4 p. m.

The undersigned takes occasion to remark that these are not new regulations, but he has been compelled to call attention to them from their frequent yiolation, which has caused much and serious inconvenience.

T. H. PARSONS, Agent.

FURNISHING MAIL LOCKS AND KEYS.

FURNISHING MAIL LOCKS AND KEYS.

Post Office Department, March 14, 1851.

It being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being,

of four years.

With a view of procuring the best lock at the lower price, no kind of lock is prescribed as a standard, the De

than six months before the termination of the first term of fear years.

With a view of procuring the best lock at the lowest price, no kind of lock is preceribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, vis: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adopted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into: afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentes will be required, on entering into contract, to make an assignment of his patent for the eccutaretor at any time to fuffil faithfully the terms and conditions of his contract, the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contract answ with any other party or parties as he may see fit, for furnishing similar locks and keys.

In deciding upon the proposals and specimens offered, the Postmaster General may deem it expedient to select for the through mails the lock of one bidder, and for the way mails that of another. He reserves, therefore, the right of contracting with different individuals for such different kinds of locks as he

HUNT'S MERCHANTS' MAGAZINE

BY FREEMAR RUNT, EDITOR AND PROPRIETOR.

THE Number for December, 1850, completed the twenty-third semi-annual volume. The work has been enlarged since its commencement in July, 1839, and each volume now contains more then seven laundred large octavo pages. A few complete sets of the Magazine may be obtained at the publisher's office, 142 Fulton street, New York, neatly and substantially bound, for two dollars and a half per volume.

The following are a few of the many commendatory letters received by the editor of the Merchanta' Magazine from distinguished statesmen:

Letter from the Hon. Henry Clay.

Ashard, 20th July, 1849.

derived on receiving the July number of the Merthants' Magasine and Commercial Review, from viewing your partrait in the beginning, and from reading your address to your friends at the end of it. When we see! under objection to those whe have contributed to car information and amusement, we are naturally dediress to possess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no heastation in expressing my humble opinion that it is mineatly entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statesman, to the cultivator of the earth, to the manufacture, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am giad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant,.

Freeman Hunt, eeg.

H. CLAY.

Extract of a letter from Hon. Millerd Fillmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals that was ever published. To the merchant in seems quite indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digetal and is accessfule as in these numbers. I only regret that I do not own the whole work."

Letter from the Hon. Thomas H. Benton.

My. Freeman Hunt.—Sir: I owe

ment.

I am, with great respect, your humble servant,
Freeman Hunt, esq. WILLIAM H. SEWARD.
The Merchants Magazine is published monthly, at 142
Fulton street, New York, by FREEMAN HUNT, and furnished to subscribers for Five Dollars a year, in advance.

SPRING IMPORTATION.

W & S. PHIPPS & CO., 64 and 66 Broadway, New York, and 16 Milk street, Boston, are now receiving a complete assortment of British, French, and German Staple and Fancy Dry Goods, which they offer on liberal terms. iberal terms.

N. B. Will receive the newest style of Dress Goods by very steamer. A large assortment of Trimming Goods always on hand.

ELASTIO* UNIVERSAL TOUCH.

WISE & BROTHER, Manufacturers of Boudoir, Grand, and Syuare Pianos, request those who would be assured of a first class Plano, one that ladies can perform on with the greatest possible advantage—one that the towen an be instantly adjusted to the exact strength of the 1m acrs and movement of music, one that will stand in concret tune, one that the tone will not become shrill and rating, that is chaste of style and elegantly made up of straight and regular curve lines, that will last an agr—to rive them a call. The ancient standing of the Baltimore Factory, and liberal patronage of citizens and others of the first order of artistic tasts and science, conceded at once the most critical, have been fully anticipated. Their recently finished Grand Piano, minutely reviewed by the most accomplished civil engineers and master artists, has been denominated truly a Grand Plano; also, that their late Boudoir, for style, power, and compass of tone, is not surpassed, if equalled, in the world. Friends and customers, please stop in and examine for yourselves.

J. J. WISE & BROTHER,
No. 31 Hanover street, Baltimore.

* Elastic, because the keys recover their quiescent place in time equal to the displacing. Universal, because the same instrument may be instantly altered to any degree hard, or soft touch, so that ten thousand or more performers, all different, may each find the touch they prefer. ELASTIC* UNIVERSAL TOUCH.

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steemboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and unseries of the Messra, Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or heartly; embracing points of view, from which may be taken in at a glanes the broad expanse of Lake Eric, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorama of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently exected at a cost of about seven thousand deliars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic exercises.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Danaville, N. Y., the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment deem it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has standed two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time axall themselves of her invaluable aid and counsel.

The steward's department is under the central of a security of a MEDICAL DEPARTMENT

lege, have been secured, and that female patients can at any time avail themselves of her invaluable six and consist.

The steward's department is under the control of a gentleman eminently qualified for that position; and unwearied pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. Baths of all descriptions, adapted to the cure of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease, while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, slike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of drugging, depleting, and cauterising, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of forther simopance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great truths upon, which the system is founded, and renders verball communications unnecessary. It is deemed sublishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its armangements. The furthfution is now open for the reception of patients, and in full operation.

TERMS.

For heard, medical advises and constraine and numerics. THE subscriber would call the attention of Printers to the greatly reduced prices of the present list. They now offer
